

Flexible, Low-Interest Financing For Public Projects

Energy Project Lease Financing is a program designed for public agencies to address the challenges that public agencies face when trying to finance energy efficiency, water conservation and renewable energy projects. Agencies can take advantage of low interest rates and use a simple process tailored to individual needs. Funding for Energy Project Lease Financing is provided through private lenders and may be used in conjunction with other utility or public financing, rebates and incentives.

The Process

- 1 Complete Energy Project Lease Financing application
- 2 Receive an Offer to Finance that outlines rates and terms
- 3 Pass a resolution authorizing the financing and the project
- 4 Receive funds
- 5 Begin construction
